- The instructor was always a very clear lecturer, and I always learned a lot from each class. Instructor was clear about expectations and testing. I appreciate the focus on learning the material and concepts rather than only memorization.
- Professor Vaidya is an amazing professor. The material is certainly challenging to conceptualize but he is so caring for his students and is always available to help or explain topics further. You can tell that he really cares about his students understanding material and feeling comfortable with the topics.
